Shrivers Pharmacy to Launch a New Pharmacy and Wellness Concept at 310 W. Union in Athens.

Athens, Ohio (June 8, 2018) Long before national pharmacy chains and bulk mail order prescriptions, quality patient care and trust was the hallmark of the hometown pharmacy. The Owner, Pharmacist and CEO of Shrivers Pharmacy, John Coler and his Partner on this project, Ben Holter, PharmD- MBA, aim to combine the best of modern medicine with the charm of individualized patient attention of days gone by.

We have customized this new store model specifically for the Athens Market. "This is our vision for the future pharmacy. Our team has worked to create a space and curate products that inspire our customers to make healthy lifestyle choices and we'll support them through the process. We want our pharmacy to be a place people come to optimize their health, not only when they are sick", said Ben Holter a pharmacist and partner in this and the Shrivers Pharmacy in Nelsonville. He also wants the community to know that Shrivers Pharmacy and Wellness is a place where people can feel free to come in, ask questions in a comfortable inclusive environment, have one on one access to a Pharmacist, and be empowered to participate in their own healthcare. This is one of many ways Shrivers Pharmacy and Wellness will differentiate their brand from National Chains.

Beyond the beautiful stone work and custom shelving, this location is a destination for health and wellness. Our store will offer the usual Prescription and OTC Medications, along with our more specialized services such as Medication Therapy Management and Compounding. You'll also find the nutraceutical brand Pure Encapsulations on our shelves and you can expect individualized nutrition counseling from a Pharmacist to help you select the regimen that's right for you. While you wait, you can enjoy a fresh brewed organic coffee or tea from local companies Dirty Girl Coffee and Herbal Sage Tea. You find won't sugary sodas, and candy bars here, those have been replaced with a large selection of natural and organic products that promote healthy living. For your convenience, Shrivers Pharmacy and Wellness has a Drive Thru Window and offers Free Delivery to your home or office.

Shrivers Pharmacy and Wellness will open their doors for business Monday June 11th and will celebrate their Grand Opening in July. Look for the date and time to be announced in store and on the Shrivers Pharmacy Facebook Page.

About Shrivers Pharmacy
